Local Authority Admissions Team

**Energy Coast UTC Admissions Policy Consultation 2024-2025**

Energy Coast UTC is proposing making some changes to its admissions policy and is therefore required to consult with parents of children between the ages of two and eighteen, other persons and admission authorities within the local area, the local authority and our community.

We are now asking these stakeholders for their contributions to our proposed admission arrangements for the academic year 2024-2025. The consultation will be open from Wednesday 7 December and will close on Wednesday 25 January.

A copy of our proposed admission policy is available to view on our website -  
<https://www.energycoastutc.co.uk/>

There will be paper copies of the proposed policy available in our reception, and other accessible formats can be made available on request. If you have any comments on the policy, please send these to [admissions@energycoastutc.co.uk](mailto:admissions@energycoastutc.co.uk).

Yours faithfully,

Cherry Tingle  
Principal
